Shalom and Good Day!!!...Tai Chi Chuan means philosophically...the Supreme Ultimate Struggle. This is the great struggle for the Supreme Ultimate Experience of God's Total Consciousness...an Ocean of Pure Consciousness, Tremendous and Vast, Bounding Infinitely, Omnidirectionally and Eternally...NOW!...In today's world we can see the "chuan" or struggle of humanity for the achievement of a world civilization...It is a proven experiment that the best institution to achieve a real civilization must be a Democracy...A government of the people themselves...Real Democracy is the only form of government that will endure through the ages and safeguard the establishment of a world community whose ideal will be for the enlightened freedom of each individual. The achievement of a True –Democracy must be realized by all people first, as the Self-Government of one's own individual Being. This is the Ideal, in which each of us citizens may utilize the opportunities of life to improve him or her Self, setting an example for all within the world community. Tai Chi Chuan and all the Disciplines of Life are valuable tools for the integration of ourselves and our society...After many years of training of body and mind through the Self - discipline of Tai Chi Chuan...each Master is taught the Dance of the Tai Chi Sword... and now I will demonstrate the Tai Chi sword.
Thank you...
